

13 February 2018

## ROADSIDE TOLLING UPGRADE PROJECT

### Night works – Northbound Sir Leo Hielscher Bridge near Lytton Rd, Murarrie

As part of Transurban Queensland's Roadside Tolling Upgrade project (RTU), construction works will be undertaken on the northbound Sir Leo Hielscher Bridge (Gateway Bridge) and Lytton road northbound on-ramp, Murarrie (see map).

**The works will take place from Sunday 18 February to Tuesday 20 February 2018, between 7pm and 5am.**

**For the safety of workers and motorists, a temporary closure of the Lytton Road northbound on-ramp is scheduled on Monday 19 February 2018 during the works. A signed detour will be in place during the closure.**

The works will be undertaken by our contractor Mcllwain Civil Engineering and Kapsch TrafficCom Australia.

#### What to expect during construction:

- traffic control and lane closures on the northbound Sir Leo Hielscher Bridge near the toll point, including reduced speed limits, to ensure the safety of motorists (refer to map for location)
- closure of Lytton road northbound on-ramp in Murarrie (Monday 19 February only)
- increased noise and light from construction activity
- increased activity around the work area including the presence of workers, vehicles and equipment
- vehicles and equipment with reverse beepers will be used to ensure the safety of workers on site.

In the case of adverse weather conditions or delays to the work, this work will be postponed to the next available shift.

All works will be scheduled to minimise impacts on the community and motorists – we thank you in advance for your patience during these works.

#### About the project:

The RTU project is part of Transurban Queensland's ongoing asset renewals program to maintain the high quality and efficiency of the **go via network**.

The project includes the construction of new tolling gantries to replace existing gantries, construction of new roadside safety barriers and the upgrading of tolling equipment along the network.

Construction of the project commenced in April 2017 and be completed late 2018, weather permitting.

#### Working with you:

Transurban Queensland is committed to providing its customers and neighbours with high quality motorways and infrastructure. We are dedicated to the ongoing maintenance of our **go via network** and to minimising its impacts and operations on the community and environment.
